DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 6, lines 5, "a first die surrounding" has been changed to ---a first die for surrounding--- (since the rim is not intended to be recited in combination with the apparatus).

Allowable Subject Matter

Claims 1-3, 6-9 and 14-18 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1-3:

The prior art fails to explicitly teach the claimed method of forming a wheel rim portion including a gripping means, a first die having a recess surrounding the wheel rim, pressing the wheel rim using a second die from an inner circumferential wall surface with a ridge and rotating a shaft to displace the ridge along the circumferential direction.

Claims 6-9 and 14-18:

The prior art fails to explicitly teach the claimed apparatus for forming a wheel rim portion including a first die surrounding the vehicle wheel rim having a

recess for supporting the wheel rim from an outer circumferential wall surface and a second die coupled to a rotational shaft having a ridge, and rotating the shaft through a rotation means to displace the ridge along the circumferential direction on the inner circumferential wall surface of the wheel rim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
